Why Use Videne® Alcoholic Tincture?

**BROAD SPECTRUM EFFICACY AND TRUSTED PROTECTION**

Povidone-iodine is extremely effective against a wide range of gram positive and gram negative bacteria (including MRSA), fungi and bacterial spores. It is also effective against a wide range of bacteria, fungi, and bacteria spores.2,3

**COST EFFECTIVE SOLUTIONS**

For fast, effective and safe preparation of the incision site prior to surgery, with Videne Alcoholic Tincture you have the added reassurance for this essential step in infection control.

**SKIN DELINEATION**

Videne Alcoholic Tincture offers appropriate and enhanced visualisation of the prepared area.

**LICENSED Povidone-Iodine Skin Disinfection**

Videne Alcoholic Tincture has been granted a marketing authorisation by the Medicines and Healthcare products Regulatory Agency (MHRA), providing assurance that the product’s safety and efficacy has been assessed before marketing.

RANGE OF FORMATS TO MEET CLINICAL REQUIREMENTS

Microorganisms on patient’s skin are understood to be the main cause of surgical site infections (SSIs) and blood stream infections (BSIs). With the Videne range of skin preparation solutions, the risk of infection can be reduced during surgical incision. This allows existing methods of skin preparation to be followed cost effectively without compromising patient safety.
