

HELPFUL TIPS

for washroom cleanliness

PROMOTE GOOD HAND HYGIENE PRACTICES

Washing hands frequently and drying hands correctly helps protect against the spread of germs

CLEANING FREQUENCIES

Establish cleaning and disinfecting frequencies to make sure you always leave that clean first impression

CLEAN AND DISINFECT SURFACES

Cleaning and disinfecting surfaces helps prevent the spread of germs

PRE-IMPREGNATION CLEANING METHOD

Increasing customer safety by reducing cross contamination

ODOUR CONTROL

Having a visibly clean washroom is vital but it also needs to smell clean and fresh

BE PREPARED

Have adequate cleaning supplies and PPE on site at all times
