USE INSTRUCTIONS

Sink Fill

Spray Bottle Fill

Sink Application

Start with a clean sink

1. To fill LiquidSense™ reservoir with concentrate: Remove bottle cap. Insert bottle into reservoir. Push hard to break the seal and empty entire contents.
2. Start filling the back sink by pushing the blue button, the button will 'click' when locked into open position.
3. Fill the back sink and pull up slightly on the button to stop the flow.
4. Immerse items to be sanitized. Let soak for needed contact time according to dilution table above.

Surface Application

1. To fill LiquidSense™ reservoir with concentrate: Remove bottle cap. Insert bottle in reservoir and push hard to break the seal and empty entire contents.
2. Peel off concentrate label to see solution label.
3. Use same bottle to fill with the ready-to-use product via LiquidSense™ dispenser.
4. Insert spray head.
5. Apply ready-to-use product on clean surfaces and rinse as needed.
